

## HEALTH CARE

## Broad Industry Expertise, Detailed Personal Attention

Many of our health care clients were once clients of a Big Four accounting firm. They switched to Moss Adams LLP because they wanted engagement teams that could provide greater personal attention, staff continuity, and health care experience.

Established in 1913, Moss Adams is one of the largest accounting and consulting firms in the United States, with offices located in Washington, Oregon, California, Arizona, New Mexico, and Kansas. While our clients benefit from one of the largest health care practices in the West, they also receive the attention only a local presence can provide.

### Commitment to the Health Care Industry

Moss Adams has focused on the health care industry for more than 37 years and currently serves more than 2,000 health care clients. Our commitment to the industry, together with our depth of expertise and dedication to service, comprise the hallmarks of our Health Care Practice.

### Depth of Expertise

Moss Adams has built a team of more than 130 professionals dedicated solely to health care accounting, auditing, and consulting. Our Health Care Practice is one of the firm's largest and includes a team of full-time technical professionals.

In addition to providing audit and tax services, we have extensive consulting experience in areas such as process improvement, regulatory compliance, coding and chart reviews, reimbursement services, revenue recovery and enhancement, strategic planning, certificate of need determinations, feasibility studies, financial modeling and forecasting, billing systems and collection reviews, electronic medical record strategies, contract review, and practice operation assessments.

Our accountants and consultants receive continuing professional education with a health care focus and are further trained through participation in industry associations. Our active industry involvement increases our ability to understand the issues you face and, most important, determine the best way to address them.

### Dedication to Service

Moss Adams maintains a high degree of partner involvement in client matters. Active partner participation ensures access to a depth of resources our clients can use in developing effective solutions. You're best served by professionals who have gained institutional knowledge through on-site experience. As a result, we don't rotate professionals with engagement management responsibilities to other clients.

Our service philosophy is to limit staff changes during an engagement and return the same team members on engagements each year. This core continuity of service helps save you time and control your costs by providing professionals who have a local understanding of your markets and strategies.

### Practice Specialties

We offer the knowledge and perspective gained only through working with a broad range of providers. Our practice areas include:

- Hospitals
- Long-Term Care
- Medical Groups & Physicians
- Health Plans
- Ancillary Health Care Services
- Health Care Consulting
- Medical Devices

HEALTH CARE

## Health Care Consulting Services

Audit and tax are vital. But you may have needs that go beyond these core functions. For example, what if you're trying to put together an ICD-10 road map for your organization? Or examining integrated delivery models to build your ACO strategy?

From coding validation and chart reviews to revenue cycle assessments and EMR system selection, the skilled health care consultants at Moss Adams LLP understand the complexities you face—and have a proven track record of delivering cost-effective solutions.

Our consulting team's experience and expertise can help you proactively address operational inefficiencies, barriers, and disconnects. We work with you to identify risks, take advantage of emerging opportunities, and develop an action plan to improve care operations, enhance infrastructure, and ultimately strengthen your bottom line.

Whether your goal is to better control costs, address growing demand and increased regulation, or cope with declining reimbursement rates, we've helped organizations like yours make smart, informed business decisions and find innovative financial solutions to drive growth and reduce risk.

We serve a wide range of organizations, including:

- Health plans
- Health systems
- Hospitals
- Medical groups
- Physician practices
- Senior living communities
- Ancillary health care providers

### What We Offer

You're in the business of care, and in many ways so are we—our mission is, quite simply, to support yours. That's why we hire and develop skilled health care consultants who not only

understand the industry and its changing nature but also know that there's no substitute for personal service.

With Moss Adams, you'll gain a trusted advisor—one committed to spending time on-site with your team, responding quickly to your questions, anticipating your needs as the health care operating environment changes, and making our most experienced technical professionals available to you.

You'll also benefit from the breadth and depth of our services, which span the health care continuum. The solutions we offer include:

- ACOs and integrated delivery models
- 5010 readiness
- ICD-10 road map
- Chargemaster management
- Claims review and processing
- Coding and chart reviews
- Contract review
- Data analytics
- Financial modeling and forecasting
- Hospital feasibility studies
- Litigation support
- Managed care operations
- Practice operation assessments
- Process improvement
- Regulatory compliance
- Reimbursement services
- Revenue cycle assessments
- Revenue recovery and enhancement
- Strategic planning
