UnitedHealthcare: Value in Value-Based Care

Traditional Health Care		Value-Based Care
Fee for Service provider payment – paying for volume, not value	 Care delivery	Pay for Value and increased risk sharing
Lack of technology and incentives for physicians to proactively coordinate patient care	 Care coordination	Physicians empowered by technology, data, and access to UnitedHealthcare programs
Data and analytics are not routinely shared	 Data and information	Analytics provide a full picture of a member's health risks, care and enhance efficiency
Costs climb without corresponding health improvements	 Costs	New shared focus with care providers to manage health care costs and quality
Complicated health care system confuses and frustrates members	 Member experience	ACO providers provide trusted support in navigating the system

Insights for Strategic Planning
and Business Growth

Dual Plan 65+ Beverly

She isn't slowing down, and neither are the many demands of her life.

Dual Plan Disabled Linda

Her needs are unique, so she's no stranger to the world of health care.

Medicaid Expansion Lisa

She is more skeptical of businesses, brands and people these days.

TANF Pregnant Vanessa

She is caught in a constant balancing act.
